Meeting concluded about 4 to meet at Benjaminville, Illinois in September.

Albert T. Mills, Clerk
Leafa Baynes Asst. Clerk.

Notes. The meeting was larger than usual and the interest most pronounced. In the evening visitors were dined at the Hotel in Salem and spent a social evening in the Hoover home, a spacious and attractive place. A human checker game was introduced which challenged ingenuity. Jane Elliott first solved it. On seven chairs as a base of operations. Six children were to be moved so that the three boys at the left would occupy the chairs of three girls at the right. There could be moves made as in checkers — no backward moves.

Prof. Palmer spoke Sunday afternoon, he a professor of commerce from ^{the University of Kentucky} Lexington College.
